

Course progression map for 2022 commencing students – MARCH ADMISSION

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It should be used in conjunction with the requirements of the course as specified in the [Handbook](#). The map is subject to updates. Update version: 14 November 2022

E3001 Bachelor of Engineering (Honours)

Specialisation – Software engineering

Year	Period	Units			
1	Sem 1 Feb	Common first year			
	Sem 2 July				
2	Sem 1 Feb	FIT2085 Introduction to computer science for engineers	MAT1830 Discrete mathematics for computer science	FIT2099 Object-oriented design and implementation	Level 1, 2 or 3 elective or engineering technical elective
	Sem 2 July	FIT2101 Software engineering process and management	FIT2004 Algorithms and data structures	FIT2107 Software quality and testing	Level 1, 2 or 3 elective or engineering technical elective
3	Sem 1 Feb	FIT3159 Computer architecture	FIT3077 Software engineering: Architecture and design	FIT3170 Software engineering practice (12 points)	Level 3 or 4 software engineering technical elective
	Sem 2 July	FIT2100 Operating systems	FIT3171 Databases		Level 3 or 4 software engineering technical elective
4	Sem 1 Feb	FIT4002 Software engineering industry experience studio project (12 points)	FIT4003 Software engineering research project (12 points) From 2023 Replace with FIT4701 (6 points)	FIT4165 Computer networks	Level 3, 4 or 5 software engineering technical elective
	Sem 2 July		From 2023 Replace with FIT4702 (6 points)	Level 4 or 5 software engineering core elective	Level 3, 4 or 5 software engineering technical elective

Malaysia students enrol in [ENG0002](#) Industrial training (0 credit points)

Clayton students enrol in [ENG0001](#) Continuous Professional Development (0 credit points)

NOTE:

- It is important that you follow the course map unit sequence, as units are designed to build on prior knowledge. Taking units out of sequence can disrupt your progression and cause delays due to semester offerings and enrolment rules.
- [MINORS AND TECHNICAL ELECTIVES LIST](#) is located on the Faculty's current student course information webpage.
- If you have completed a unit in First Year (eg MAT1830 or FIT2085) that is also a core in your specialisation, or if you have completed a unit that is a prohibition to a core unit in your specialisation, you must replace the core with another unit chosen from the software engineering technical electives list. The replacement unit must be of the same level as the core unit or higher.
- Engineering minors are not available within the Software engineering specialisation.
- Enrolled in the Industry Based Learning placement program – You will have a different progression map, with your placement in Semester 2 of third year. You will need to overload in one semester or complete a summer semester unit.
- You are required to complete the [Continuous Professional Development](#) (if studying in Australia) or [Industrial training](#) (if studying in Malaysia) in order to graduate.
- No more than 60 credit points of level 1 units can be credited to the engineering course.
- For enrolment advice, please speak with a course adviser in your specialisation. Refer to the [Course Advisers webpage](#) if you are in Clayton.
